3 easy virtual meeting features to enhance employee recognition

Let's celebrate our successes—big and small!

With employee appreciation celebrations being canceled for more than a year, **colleagues lack the recognition they deserve.** That's why there's no better time to **leverage virtual meetings to thank your team members** for their contributions.

Here are **3 ways** you can **use web meetings** to **create a meaningful experience** for employees:

1 Play some tunes

Upbeat music can set the tone for **a positive atmosphere.** Use it to make a winning playlist to match your team's winning spirit.

Check out **Spotify** to create a playlist for your next recognition event.

	Song	Artist
▶	**All Star**	**Smash Mouth**
2.	Best Day of My Life	American Authors
3.	Happy	Pharrell Williams

2 Create a personalized experience

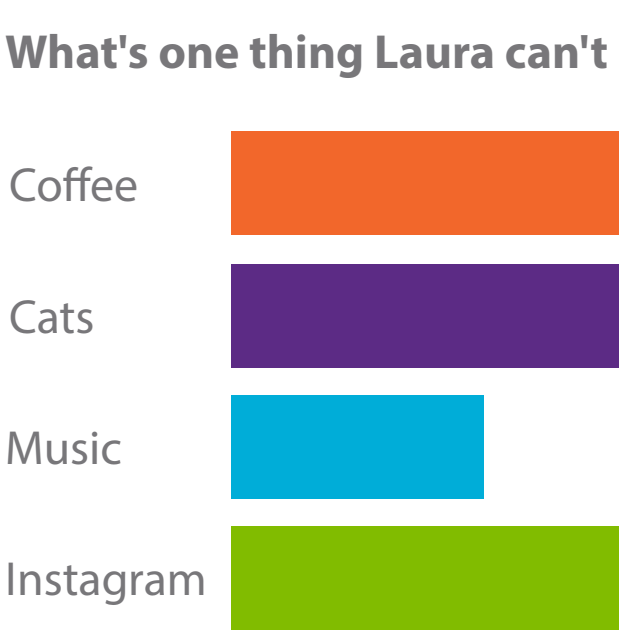
Whether it's hand-written or typed, **a personalized 'thank you'** can go a long way toward boosting employee morale.

Check out **Mural.com** to build your own wall of gratitude.

3 Host an engaging activity

There's no better way to celebrate your colleagues' achievements than **catering your activities to what they enjoy**—like a friendly competition.

Use the polling features in **PollEverywhere or Mentimeter** to create a trivia game or quiz and pump some energy into your event.



We could all use a reason to celebrate right now!
